SUMMARY

Recent Computer Science and Engineering graduate with hands-on experience in full-stack development, mobile apps, and cloud integration. Served as Technical Lead on a real-world client project using Flask, React Native, and Rclone. Passionate about building user-focused applications and solving problems with clean, scalable code.

EDUCATION

University of California, Merced

Bachelor's degree, Computer Science and Engineering

Expected August 2025

Merced, CA

WORK EXPERIENCE

sweep

Software Engineer Intern

Jan. 2025 – May 2025

Merced, CA

- Sweep is a technology company focused on developing efficient solutions and cloud-based platforms.
- Collaborated with a team to develop a cloud-based file synchronization platform.
- Designed and implemented a secure RESTful API using Flask
- Contributed to the front-end using React Native
- Optimized Android version of the app, improving performance, responsiveness, and device compatibility.

PROJECTS

Capstone Project: Mobile App & Cloud Server

Jan. 2025-May 2025

- As the Technical Lead and Full-Stack Developer on my senior capstone team, I helped design and deliver a cross-platform mobile application that enables our client's customers to sync files to a deployed centralized server.
- Collaborated with UI/UX designers to create intuitive interfaces, ensuring that the mobile app met user needs and followed industry's best practices.
- Enabled file synchronization across multiple cloud services (e.g., Google Drive, Dropbox) through backend integration with Rclone
 - **Stack:** JavaScript (React Native), Python (Flask), Rclone, Docker

ChopperBot

- Created a Discord bot in Python integrated with OpenAI APIs, enhancing user engagement through dynamic interactions and customized conversation personalities.
- Combined backend logic with real-time interaction and API handling.
 - **Stack:** Python, OpenAI API, Discord.py

C++ Image Editor with Qt

- Developed an image editor using C++ and the Qt framework
- Implemented key features including cropping, resizing, rotation, and color adjustments
 - **Stack:** C++, Qt framework

SKILLS

- **Technical Skills:** Python, C++, Java, React/React Native, Flask, REST APIs, Rclone, Docker, Git, Android Development, UI/UX Design
- **Soft Skills:** Technical Leadership, Cross-Functional Communication, Problem Solving
- **Tools/Other:** GitHub, Postman, Firebase, Figma
